## FOREWORD

I am happy to know that my Ministry is bringing out a series of State-wise booklets on the achievements of the Government of India, in the Ministry of Tribal Affairs (MoTA) in the last few years, pertaining to the empowerment, welfare and development of our Scheduled Tribe brethren and sisters.

The fifth edition in this series pertains to the State of **Telangana**. Apart from facts regarding the Scheduled Tribes (STs) of the State, this booklet is a wealth of information on the schemes of the Ministry as implemented in Telangana.

The flagship Eklavya Model Residential School (EMRS) Scheme has been a transformative change, since its introduction, with both the cost of construction and the per student recurring cost being increased exponentially. Further, it has ensured that these schools strive to impart quality education at par with the best institutions in the country.

Our Scholarship schemes have seen a rise in the number of children availing them. Further, digitization and the release of funds in the Direct Benefit Transfer (DBT) mode to students has considerably streamlined the processes and made them transparent. It is a matter of pride to note that the Ministry grants scholarships to around thirty four (34) lakhs pre-matric and post-matric students on universal coverage basis subject to income criteria to ST students, besides granting two other kinds of scholarships to meritorious students on selection basis. Indeed, the scheme of scholarships for students studying in selected top institutions of the country, which was previously granted on selection basis, has also been now opened up on universal basis subject only to income criteria.

Additionally, the Ministry and its organizations, the Tribal Cooperative Marketing Development Federation of India (TRIFED) and the National Scheduled Tribes Finance Development Corporation (NSTFDC), are engaged in a variety of ways to ensure livelihood of the tribals, especially women. The TRIFED, for instance, strives to ensure Minimum Support Price (MSP) for Minor Forest Produce (MFP) as well as the formation of the Van Dhan Vikas Kendras, besides serving as a marketing platform for the tribal

products. The Pradhan Mantri Janjatiye Vikas Mission (PMJVM) (a revamped scheme by the merger of the earlier two schemes of (i) Institutional Support for Development and Marketing of Tribal Products/produce and (ii) Mechanism for Marketing of MFPs through MSP and Development of Value Chain for MFP) has revitalized tribal livelihood sector. Van Dhan Vikas Kendras and the other components of the PMJVM have shown the acumen of the tribal MFP collector, craftsmen, artisans and entrepreneurs. The Ministry is therefore eager that many more such Kendras and enterprises should be set up and thrive to showcase the enterprise and skills of the tribals.

The NSTFDC offers credit to eligible tribal entrepreneurs at considerably lesser interest rates as well as student loans. This booklet is an important document at creating awareness on such schemes.

Multi-sectoral activities projects have been funded by the Ministry under grants under Article 275(1) of the constitution, the erstwhile Special Component Assistance (SCA) to Tribal Sub-Scheme (which is also now revamped as the Pradhan Mantri Adi Adarsh Gram Yojana) and the scheme for Comprehensive Conservation and Development of the Particularly Vulnerable Tribal Groups (PVTGs). Telangana has benefitted out of such schemes and we hope will continue to be a partner in this Ministry's goals of development of the tribals.

The tribal Research Institutes (TRIs) are an important part of our journey. They serve as our sources of knowledge for understanding of the tribal people for effectively administering our schemes as well as in preservation, conservation and promotion of tribal socio-cultural life and livelihoods. I am happy to report that the construction of the building of the Tribal Research Institute of Telangana at Hyderabad has been supported by my Ministry.

Where the Government schemes are unable to penetrate some tribal areas the scheme of Grants to Voluntary Organizations, especially in the Health and Education sectors has helped many tribal communities. Likewise, our Centers of Excellence have taken up projects in many areas, including research pertaining to STs.

Constitutional and legal matters are of especial significance to our tribal population. The Konda Reddis, a tiny community in numbers, but signifying our Government's resolve of *reaching out to the last mile*, has been notified in the list of Scheduled Tribes of Telangana recently. This is one amongst other communities in other States who have been similarly notified.

The Forest Rights Act (FRA), 2006 has been rightly hailed as an Act to undo the historical injustice done to the tribal population. It uniquely recognizes the symbiotic relationship between the forests and the tribes. The Ministry has taken significant steps to ensure the implementation of the Act. Telangana's achievements in this respect have been documented herein.

Last, but not the least, in order to recognize the unsung tribal heroes who has notified 15<sup>th</sup> November, the birth anniversary of Bhagwan Birsa Munda, as Janjatiya Gaurav Diwas in 2021. I am happy to note country-wide celebrations, including in Telangana, of this day in both 2021 and 2022.

The Ministry is also well aware that the tribals have a unique culture and character that enable them to live a satisfactory life, despite many hardships. There are indeed numerous lessons in climate action, living life to the fullest and in attaining happiness, to strive to attain its objectives of bringing the tribal population of this country on par with the national and global best, while also learning and disseminating the best practices, traditional knowledge and wisdom that these diverse communities have to offer to the nation and the world. This shall be done in partnerships with stakeholder, with a whole of the nation approach, with the goal of attaining ***sabka saath, sabka vikas, sabka vishwas, sabka prayas.***

### **Pradhan Mantri Janjatiya Vikas Mission in TELANGANA**

- ➔ Ministry is implementing the scheme 'Pradhan Mantri Janjatiya Vikas Mission (PMJVM)' with a total financial outlay of Rs. 1612.27 crore for implementation during the financial years 2021-22 to 2025-26. PMJVM has been redesigned through merger and extension of two existing schemes for promotion of tribal livelihood, i.e., "Mechanism for Marketing of Minor Forest Produce (MFP) through Minimum Support Price (MSP) and Development of Value Chain for MFP" and "Institutional Support for Development and Marketing of Tribal Products / Produce". Tribal Cooperative Marketing Development Federation of India (TRIFED) is the nodal agency for implementation of the Scheme. PMJVM envisions to strengthen tribal entrepreneurship initiatives and to facilitate livelihood opportunities by promoting more efficient, equitable, self-managed, optimum use of natural resources, Agri / Non-Timber Forest Products (NTFPs) / Non-farm enterprises. The Mission seeks to support the theme of "Vocal for Local by Tribal".
- ➔ In Telangana significant milestones have been achieved in the implementation of the Van Dhan Vikas Kendra (VDVK) initiative, as evidenced by the sanctioning of funds amounting to 225 Lakhs for the establishment of 17 VDVks. These centers have had a profound impact, engaging a total of 5100 beneficiaries in various tribal communities. In a concerted effort to enhance the capabilities of these VDVks, 17 centers have received comprehensive training sessions and essential tool kits.
